VILLAGE OF KINGSLEY BROWNFIELD REDEVELOPMENT AUTHORITY

In addition to statutory requirements, all projects submitted will be considered only if they meet the following overall guidelines. Notwithstanding the guidelines below, individual projects are not considered approved until they have received formal notification of such approval from the BRA and Village Council by Resolution adopting the Brownfield Plan.

The Kingsley Brownfield Redevelopment Authority (BRA) understands that each project is unique and will be judged on its own merits. BRA evaluation of projects will not necessarily be limited to the guidelines below, but will consider all appropriate criteria put forth by the applicant or any other criteria that the BRA deems relevant.

Evaluation Criteria:

- Nature, extent of contamination, including threat to water quality and public health, and the extent to which the contamination will be remedied.
- The viability of the project without Brownfield assistance.
- The existence of abandoned, vacant buildings, or blight, and the extent to which the project will remove the blight.
- The type and size of use and the extent to which it is consistent with community land use or master plans and the encouragement of redevelopment in growth and investment areas.
- The extent to which the project creates new long-term jobs.
- Overall enhancement to the community.
- Improves public infrastructure consistent with land use or master plans.
- Other factors benefitting the community.
- The availability of Tax Increment Financing (TIF) capture to pay for the cost difference of developing a Brownfield site as compared to a Greenfield site.

The guidelines outlined above should not be considered a complete list but provide a framework by which the Kingsley BRA will screen projects for incentive consideration.
